

## CLAIMS

### WHAT IS CLAIMED IS:

1. A compound of the formula shown below:

wherein Z = aryl, heterocyclic, substituted or unsubstituted alkenyl, substituted or unsubstituted alkynyl group, while X and Y can be the same or different, are hydrogen, substituted or unsubstituted alkyl, cycloalkyl, aryl, aralkyl or heterocyclic group except the compounds with:

Z = phenyl, Y = H, X = H, methyl or benzyl, and Z = 4-pyridine, X = methyl, Y = H..

Or When X = aryl, heterocyclic, Y and Z, can be the same or different, are hydrogen, unsubstituted or substituted or alkyl of two or less hydroxyl groups and no carboxylic acid group, cycloalkyl, aryl, aralkyl or heterocyclic group, except the chemicals with:

Z = methyl, Y = H, X = phenyl, 4-methoxyphenyl, 4-methylphenyl.

2. A compound of claim 1, wherein

Z = , wherein Z<sub>1</sub> is a group with at least two hydrophilic atoms selected from N or O, such as piperazinyl, 4-methyl-piperazinyl and morpholinyl, while X and Y can be the same or different, are hydrogen, substituted or unsubstituted alkyl, cycloalkyl, aryl, aralkyl or heterocyclic group.

3. Use of a compound according to claim 1 in the manufacture of a medicament for the treatment or prophylaxis of proliferative diseases.
4. Use of a compound of the formula show below

wherein Z= phenyl, Y = H, X = H, methyl or benzyl; Z = 4-pyridine , X = methyl, Y =H; or Z = methyl, Y = H, X = phenyl, 4-methoxyphenyl or 4-methylphenyl in the manufacture of a medicament for the treatment or prophylaxis of proliferative diseases.

- 5 5. Use of a compound according to claim 2 in the manufacture of a medicament for the treatment or prophylaxis of proliferative diseases.
6. A pharmaceutical composition comprising a compound of the structure of claim 1 wherein Z = aryl, heterocyclic, substituted or unsubstituted alkenyl, substituted or unsubstituted alkynyl group, while X and Y can be the same or different, are hydrogen, substituted or unsubstituted alkyl, cycloalkyl, aryl, aralkyl or heterocyclic group or a pharmaceutically acceptable salt thereof, in association with a pharmaceutical carrier or diluent.
- 10 7. A pharmaceutical composition comprising a compound of the structure of claim 2 or a pharmaceutically acceptable salt thereof, in association with a pharmaceutical carrier or diluent.
- 15 8. A compound of the formula shown below:

wherein Z= methyl; Y = methyl; while X can be the same or different, is hydrogen, substituted or unsubstituted alkyl, cycloalkyl, aryl, aralkyl or heterocyclic group, except that when X is methyl Z is not methyl.

- 20 9. Use of a compound according to claim 8 in the manufacture of a medicament for the treatment or prophylaxis of proliferative diseases.
10. A pharmaceutical composition comprising a compound of the structure of claim 9 or a pharmaceutically acceptable salt thereof, in association with a pharmaceutical carrier or diluent.
